About EDOOVO

EDOOVO is an online enrichment learning platform designed to supplement your child's school curriculum and stretch his/her learning.

Covering English, Maths and Chinese, our online enrichment is suitable for all children aged 3 to 8 years old.

Featuring real-time teaching by qualified teachers, our interactive online platform allows for both fun and engaging learning for your little one!

Real-Time Teaching

EDOOVO's real-time teaching allows for engaging interaction and two-way communication between teachers and children.

With real-time engagement, EDOOVO teachers are equipped with the vital ability to effectively motivate and build strong emotional connection with your child, allowing for the best learning to take place.

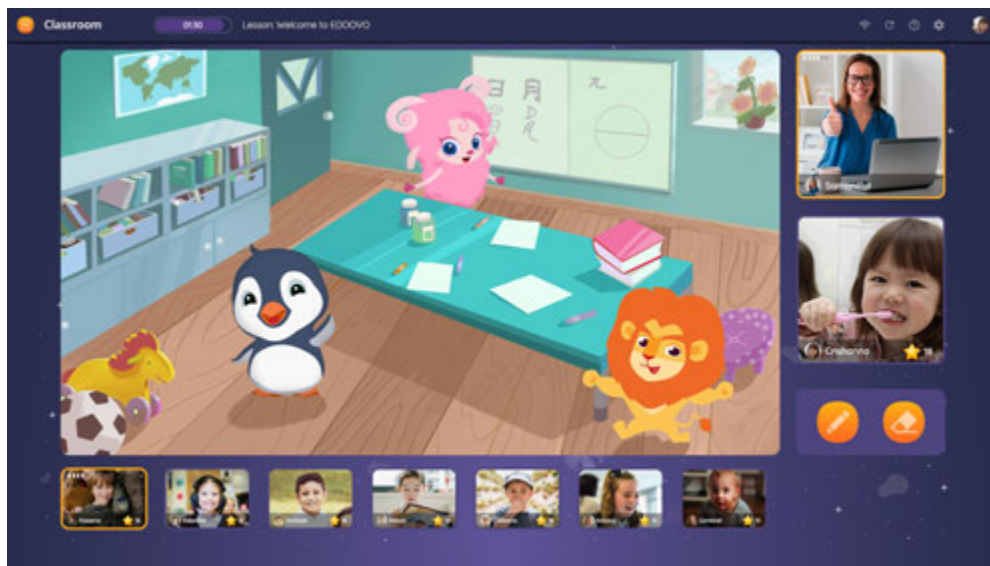

Gone are the days of pre-recorded lessons - let EDOOVO showcase the spirit of active learning again!

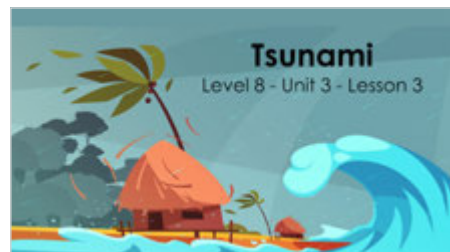

Interactive Learning Platform

We make lessons fun and enjoyable!

Our interactive platform features games, activities and learning rewards, allowing your child to grasp greater, newer insights beyond their daily school curriculum, all while having fun!

Your child's learning will also be reinforced through activity sheets and lesson replay which will be made available after every lesson for all classes.

Low Teacher-Child Ratio

Our small-class format with a strong teacher-child ratio effectively maximises attention and interaction between our teacher and every child!

	LittleWhiz Junior	LittleWhiz Senior
Ages	3 - 5 Years	5 - 8 Years
Recommended Level	1 - 4	5 - 8
Class Size	Up to 4 Students	
Lesson Duration	25 Minutes	50 Minutes
Available Subjects	English, Maths and Chinese	
Lesson Frequency	Once per Week	
Teacher Assignment	Fixed Teacher for the Term	

All EDOOVO teachers are academically qualified and committed to your child's learning. Having a dedicated teacher builds stronger emotional connection and ensures consistent teaching style and methods.

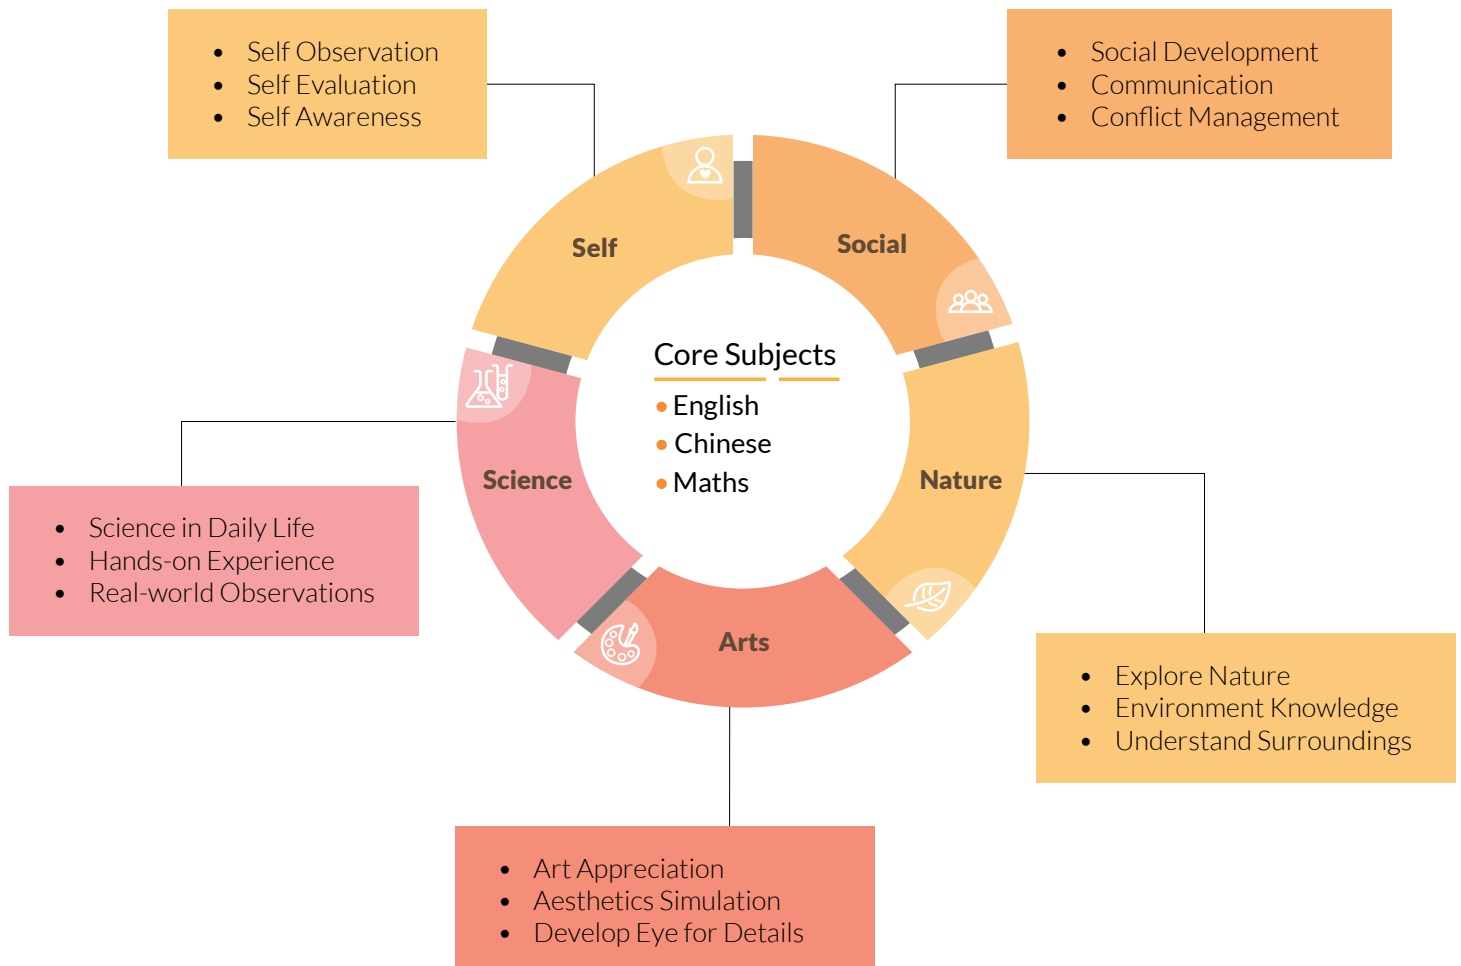

Each age group's concentration span is also considered carefully for lessons. Our 25 and 50 minutes lessons ensure that optimal learnings take place for every child.

Holistic Curriculum

Our developmentally-appropriate and progressive curriculum model allows for every child to progress and learn effectively based on their interests and learning levels.

Our unique holistic curriculum features 5 core learning domains: self, social, nature, science and the arts.

Lessons for every subject are designed to cover a variety of topics based on these learning domains while supporting your child in achieving numerous developmental goals.

Age-Appropriate & Progressive Learning Levels

Our curriculum is tailored to meet every child's current learning level - choose to start at the level best suited for your child based on his/ her ability

Hear what our happy parents have to say!

“ My son enjoys attending his EDOOVO classes. The classes are interactive and the teachers are very nice and patient with the kids! ”

Mr Zong Wenbo
Parent of Dylan (Age 7)

“ My son attends EDOOVO English & Maths and he loves it! EDOOVO has been very user-friendly with good quality content, helping him improve at the comfort of home. Class size is kept small and there are no issues getting the teacher's attention. We will be signing up for the next season! ”

Mrs Rachel Toh
Parent of Aiden (Age 4)

“ After 6 months of English and Chinese lessons, we're still happy about EDOOVO: well-designed programme, excellent interaction between the passionate & active teachers and the children. My child learns a lot from this online platform. She's always excited for her classes every Saturday morning! ”

Mrs Hoang Anh Tran
Parent of Elise (Age 5)

“ My son enjoys his Math EDOOVO lessons! The classes are fun and interactive - most of the time, he can't wait for his turn to answer! When school started, he had even requested for me to sign him up for BOTH Maths and Chinese classes! ”

Mrs Vanessa Tan
Parent of Xin Hua (Age 6)

Hear what our happy parents have to say!

“ Louise loves her lessons and teachers! Every weekend, she is enthusiastic and even reminds me that her lessons are starting! It is great that we can allow her to continue with her enrichment activities with EDOOVO as it is an online-based learning platform. She always shares with me how interesting her lessons were after they ended. Definitely a win-win situation for me and my girl! ”

Mrs Abigale Tan
Parent of Louise (Age 6)

“ My boy loves attending the classes on weekends! He always had fun and loves answering questions during his lessons. His confidence has grown immensely and he has improved greatly on his Chinese language skills. ”

Mrs Linda Lee
Parent of Alphonse (Age 6)

“ A very interactive platform that keeps my girl entertained and focused during her Chinese lesson. Content and images are vivid and interesting. Student gets to play around on the site too! ”

Mrs Renee Tay
Parent of Nickelle (Age 4)

“ Lauren loves attending her classes every weekend! With most enrichment classes halted, I am glad that my girl is able to continue to learn online, interact with her classmates and teacher, all at the comfort of our home! ”

Mr Lee Choon Beng
Parent of Lauren (Age 5)

Frequently Asked Questions

Q: How are EDOOVO classes conducted?

A: EDOOVO classes are conducted through our own proprietary platform via browser access. Simply log in to our website www.edoovo.com to access the online classroom interface.

Q: How do we know which class level is suitable for my child?

A: We offer a free trial lesson before any actual enrolment. Our parent liaison team will arrange your child's trial lesson based on the proficiency level of the subject choice and the year he/she is born. After the lesson, the teacher will assess and provide feedback to determine your child's suitable class level.

Q: Is EDOOVO's curriculum in line with MOE schools?

A: Our curriculum encompasses the areas stipulated in the MOE framework. Lesson materials relate directly to your child's school needs as we adapt the MOE syllabus and use it as a guideline in the execution of our classes. For each level and subject, our curriculum specialists have designed lessons to meet specific learning outcomes aimed at his or her level.

Q: What qualifications do your teachers have?

A: All our teachers hold a minimum of a diploma qualification from a variety of disciplines. They are carefully selected based on their expertise and their potential to provide children with a strong foundation for lifelong learning. Additionally, our teachers undergo a structured quality in-house training programme to equip them with the latest teaching techniques aimed at developing the whole child.

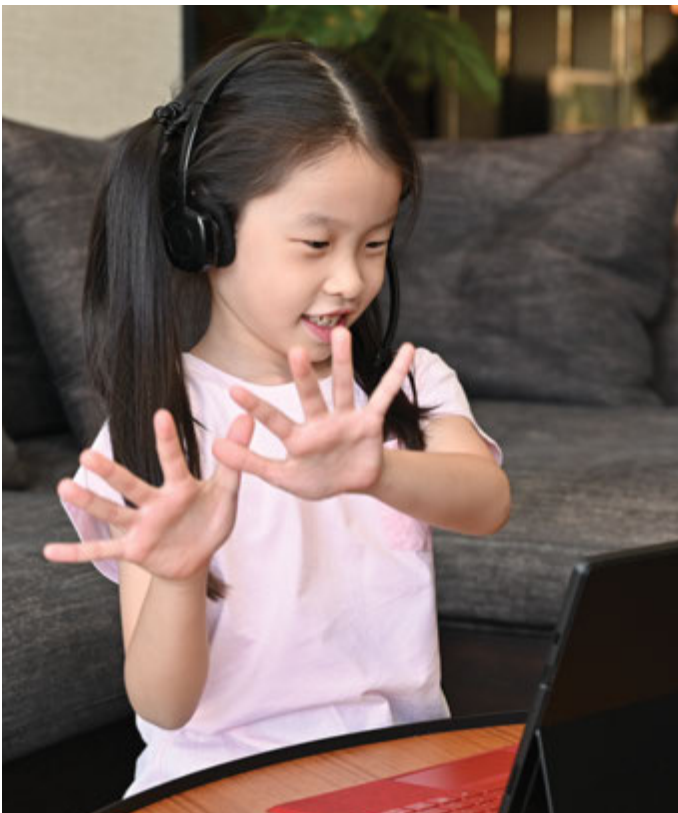

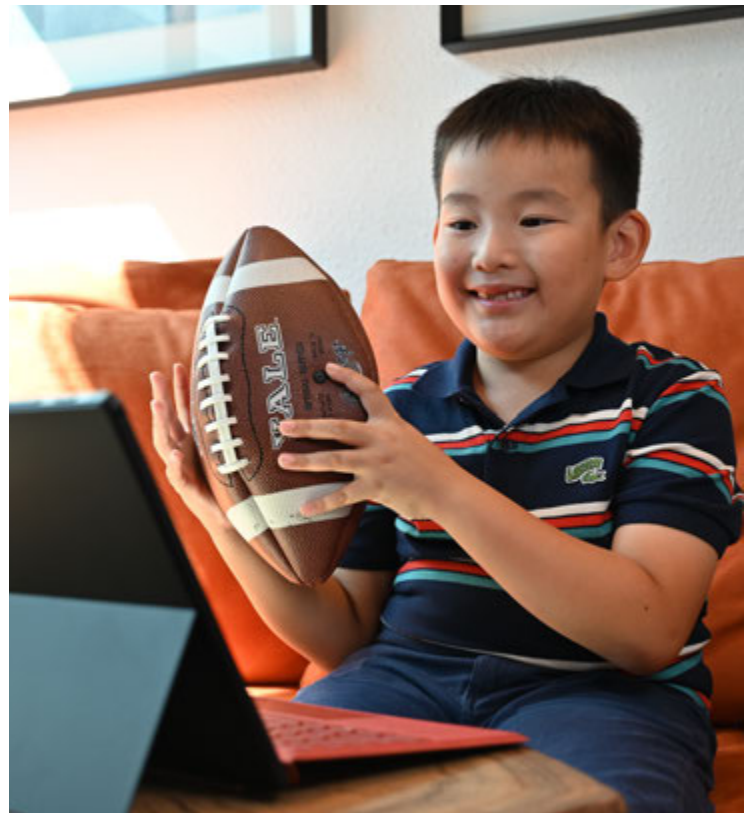

Q: Does EDOOVO provide assignments?

A: We provide activity sheets that are available for download after each lesson. These activity sheets reinforce the concepts learnt during the lesson. Students are highly encouraged to complete the activities before their next class commences.
